MESSAGE

The ICAR-Indian Agricultural Research Institute (IARI) in New Delhi, established in 1905 based on the land grant university model of the United States, is a premier multidisciplinary education and research-intensive national institute of ICAR. In 1958, it was recognized as a Deemed University by the University Grants Commission (UGC). Before this recognition, the institute provided an Associateship considered equivalent to M.Sc. degree by the UGC. Starting in 1958, IARI's Post Graduate School began conferring M.Sc. and Ph.D. degrees. In 2022, the school was renamed The Graduate School, IARI, with the initiation of undergraduate programs in Agriculture, Community Science, Agricultural Engineering, and Biotechnology. To date, The Graduate School, IARI has awarded 10,828 degrees to Masters, M.Tech, and Ph.D. students. The alumni of IARI have established its national and global reputation, occupying senior positions in the National Agricultural Research, Education, and Extension System (NAREES) and international organizations, including CGIAR institutes. The IARI Alumni Association, founded in 1986, serves as a national forum for past, current, and future alumni, playing a key role in the growth of their alma mater towards becoming a global university. I am happy to know that the Association is bringing out the Alumni Members' Directory which I understand is dedicated to Dr. M.S. Swaminathan, Father of India's Green Revolution and Proud IARI Alumnus on the conferment of "Bharat Ratna" (Posthumously), the highest civilian award of the Republic of India to him in the year 2024. The Directory will bring in closer ties among alumni in pursuing the larger interest and objects of the Association. I congratulate the office bearers of the present executive committee for this excellent achievement and hope the new executive committee would carry forward the good work.

MESSAGE

The ICAR-Indian Agricultural Research Institute, New Delhi, established 119 years ago, is India's premier higher educational institution for agricultural research, human resource development, and extension. In 2023, IARI was ranked 1st in Agriculture and allied categories by the NIRF, Ministry of Education, Government of India. Committed to achieving the National Education Policy 2020 targets for transforming IARI into Multidisciplinary Education and Research University / Global University, efforts are being pursued by IARI in mission mode. Few of these targets include establishment of agripreneurship ecosystem for students and faculty, internationalization through enhanced students intake and international faculty on roll, curricular reforms, and the creation of an ecosystem for co-scholastic development of students and their capacity building, among others.

The IARI Alumni Association (IAA), a vital body of IARI has a big role to play in this context. However, to harness the potential of IARI Alumni for achieving the ambitious transformative targets of IARI Global University, nonavailability of an updated alumni database was identified as the biggest hurdle. To overcome this, a mission mode effort was undertaken by EC, IAA and Graduate School, IARI that is being presented in the form of the Members' E-Directory 2024, IAA. It contains information on 9903 alumni, out of which, the contact information for 5100 alumni has been updated so far. It is sincerely hoped that in very short time with efforts of all alumni, the remaining gap will also be overcome.

I hope through an effective communication now possible because of the above mentioned effort IARI Alumni Association will help significantly IARI achieving its goal of Global University.

The contributions of all Executive Committee members especially, Dr. SM Manu and the staff of IT Cell, The Graduate School, especially, Mr. Nitin Kumar, Technical Assistant and Mr. Deepak Tomar, YP-II, are sincerely acknowledged.
